# Hydrofacial Machine With Facial Skin Analysis

: BL - 505

Advanced facial skin analyze  
diagnostics, hydrofacial treatment  
spectral imaging for professional  
Customizable RF, ultrasound,

| Parameter                     | Specification                                                |
|-------------------------------|--------------------------------------------------------------|
| Vacuum range                  | 800mmHg                                                      |
| Output control                | Touch screen & handle switch                                 |
| Golden RF                     | 10 levels of energy adjustment                               |
| Electrophoresis               | 1MHZ (10 levels of energy adjustment)                        |
| Ultrasound                    | 1MHZ (10 levels of energy adjustment)                        |
| Ice-sealed refrigeration head | Water cooling & air cooling (10 levels of energy adjustment) |
| High frequency shovel knife   | 25KHZ (10 levels of energy adjustment)                       |
| Ion Airbrush Pen              | 2000mmHg                                                     |
| Interface                     | 10.1 inch touch screen                                       |
| Input voltage                 | 100-240V 50-60HZ 150AV                                       |
